School board closes campus for '87-'88

The Mayville Board of Education voted to close the high school campus for the 1987-88 school year in a special meeting held Thurs, July 16. Eight guests were in attendance.

The closed campus will restrict students from leaving the school during lunch hour, entering the parking lot or front yard, or walking between the high school and middle school.

Previously the high school campus was closed except for lunch hour when students were allowed to leave.

The action the board took in completely closing the high school campus was sparked by complaints of high schoolers in town during lunch hours.

High School principal Clifford Crossett outlined a two-lunch hour system he plans to use to handle the added number of students eating at the school cafeteria. The first lunch hour will consist of students who have their fourth hour class in the lower level of the building. These students will eat while the students whose fourth

hour class is upstairs are in class. Students whose fourth hour class is upstairs will then eat while the students of the previous lunch hour are in class. Students on lunch hour will not be allowed to go in halls where classes are in progress.

In addition to halls where classes are not in session, students will be allowed to be in the gym and an outside area south of the high school building.

Also discussed at the special meeting were new administrative policies concerning absences, boy-girl relations and profane language.

All students in grades 7-12 will be required to take exams regardless of perfect attendance. However, students will still be rewarded for perfect attendance by receiving a day off from school at the end of the semester, allowing the stu-

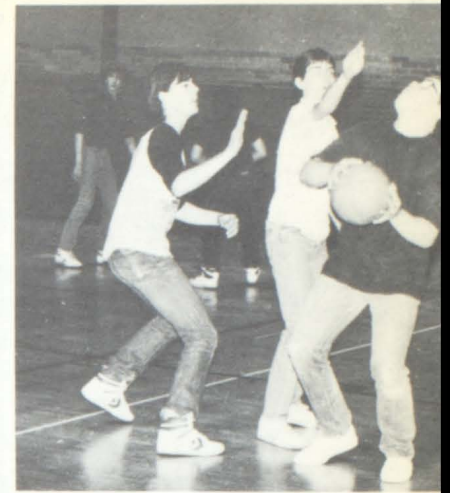

dent to have a three-day weekend.

Boy-girl relations will be restricted to holding hands only on all school property.

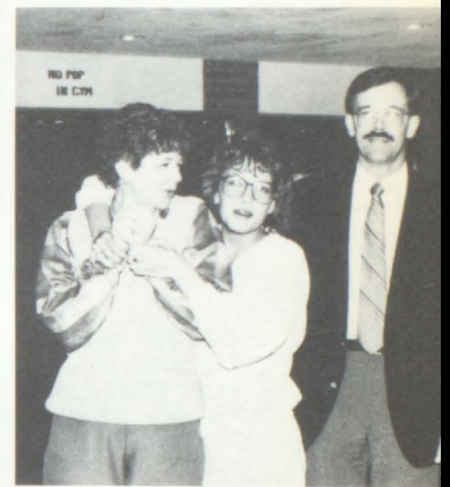

Punishment for profane language will focus on students using words or gestures referring to sexual intercourse or to the male or female genitals.

Also added into administrative policy was the incorporation of an after-school detention system. The Saturday-suspension system will be eliminated. If a student receives punishment in the form of a one-day suspension from school, the student's parents will be notified and will make a decision on whether the student takes one day of suspension or five days of after-school detention. After school detention, a one hour period in which students must do school work, can be issued as disciplinary action in itself.

Special thanks to the Mayville Monitor for this exert from the July 23, 1987 issue.

Since students weren't allowed to leave the building, many took part in noon-rec.

Dani could get detention by Mr. C for attacking one of our guards.

Everyone had to put up with the school's food as a result of closed campus.

Boy-girl relations were restricted to holding hands but Toni and Greg sneak one in.

Students were actually permitted to go outside in a "designated" area.
